

Press release : Online kick-off meeting of the Social Action Photography project

On 15 July 2024, at 2pm, the partners in the Social Action Photography project met online to launch the project.

The Social Action Photography is a small scale project funded by the Italian National Agency under the Erasmus Plus programme. It officially started on the 1st of July 2024 and will last 12 months.

The meeting was led by the Italian organisation Cooperativa Sociale Il Sestante Onlus, coordinator of the project. The partners, Programma Integra - societa cooperativa sociale (Italy) and SOLUTION: Solidarité & Inclusion were also present.

The project aims to promote young people's active citizenship and activism through participatory art methodologies, such as social action photography and photovoice.

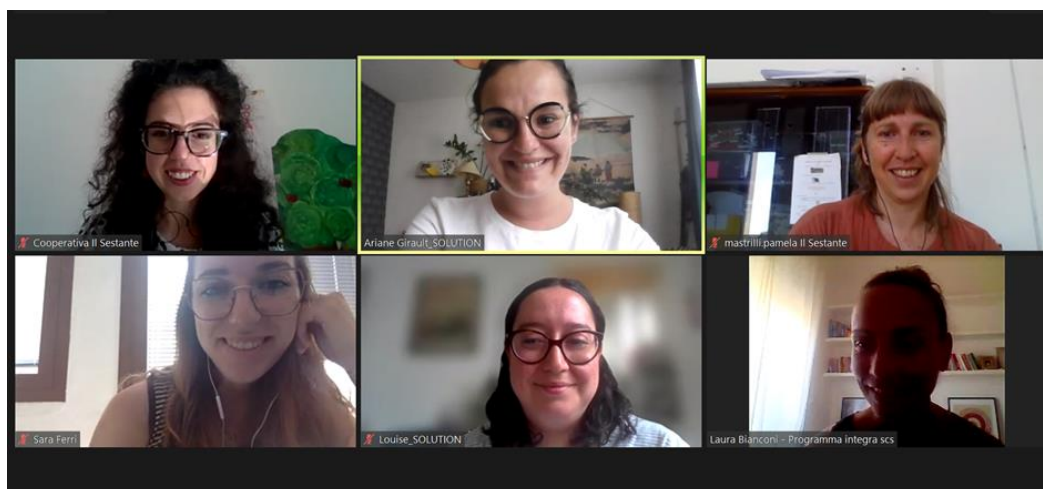

In order to reach this objective, three activities are foreseen:

- 1) Activity 1: The consortium will implement best practices and approaches exchange on creative visual methodologies for youth activation among the partner involved with a specific training for partner on the photovoice method during the partner meeting to be held in Padova (in September or early October 2024).
- 2) Activity 2: In the second activity the consortium will implement training for Third sector entities on the use of visual art methods in their organisations for community development and social inclusion of youngsters.
- 3) Activity 3: The third activity will implement the educational method "head heart hand" with the use of photography with young people (18-30 years old)

These three activities will make it possible to set up two additional activities:

- 1) Activity 4 : Photography Walks : These walks will enable young people to put into practice what they have learned in the workshops set up in activity 3.
- 2) Activity 5: Photo exhibitions: The pictures taken during the activity 4 will be presented during events to be held in Padova, Paris and Rome.

Stay tuned for more information about the project!
